

CARE BOX PACKING LIST

Due to Nicaragua Custom changes we need you to fill out this list based on the items you are sending in your box. Prior to this list we needed to know item by item but now we can group them together by type. Below is a list of the most popular items we see in our care boxes. Make sure you put your name on the outside of the box and put this completed list **IN YOUR BOX** along with your child's name written on the sheet. When entering the item quantities please follow this example: If you have a pack of pencils and there are 12 pencils in that pack your quantity total will be 1 pack. If you have something that has multiple items in a pack like toothbrushes and toothpaste please list 1 toothbrush and 1 toothpaste even if there are more in one pack.

If you have something that is not listed please write the item under the "Other" category. * A small bag of hard candy can be sent but do not add to this list. No food items please.

Tear this portion off and send in the bottom half. Please do not tape to box. Put inside.
